Hi Jessica,

Thanks a lot for your email.
We will re-submit an updated CRP with updated information for section 4.4.

A separate landfarm CRP will be submitted at a later date. We are currently reviewing the data from our fall sampling event within the landfarm and assessing its conditions.

With regards to the outstanding submissions, because of the COVID-19 situation, we've had delays getting staff to execute the field program and access the CGB's inventory for chemicals, spill kits, etc...

- The efficacy studies will be sent as DRAFT to CGB in November.
- The Sewage Disposal Facility Operation and Maintenance Plan was finalized today and can be found attached to this email (unsecured).
- The Spill Contingency Plan is submitted as DRAFT to the CGB and awaiting comments momentarily.
- The Hazardous Waste Management Plan is submitted as DRAFT to the CGB and awaiting comments momentarily.

Have a great day.
Regards,
Yannick

Subject: RE: Community Government of Behchoko - Updated Closure and Reclamation Plan

Good day Yannick and Treeva,

Thanks for the updated Closure and Reclamation Plan (CRP) submission for the existing Solid Waste Facility on behalf of the Community Government of Behchokò. Board staff note that Section 4.4 of the Plan states: “the existing landfarm will remain operational”. It is Board staff’s understanding from previous correspondence and response to reviewer comments (see Reasons for Decision for the Landfarm Soil Use Request) that the landfarm is no longer operational and that it was the CGB’s intention to permanently close the landfarm and submit a closure plan separate from the existing Solid Waste Facility CRP. Can CGB and BluMetric please confirm this is still the case? If so, Board staff recommend the Plan be revised and re-submitted to reflect the current status of the landfarm and indicate the CGB’s plan for submission of a separate landfarm CRP.

On a separate note, does BluMetric or the CGB have an ETA on when the Board can expect the rest of the outstanding submissions? In May, Board staff received a list of plans and submissions to be expected (see attached email ‘Update from Behchoko – Water License/Project’).

Masi,

Jessica Pacunayen, M.Sc. (she/her/hers)

Subject: Community Government of Behchoko - Updated Closure and Reclamation Plan

Good evening Jessica,

Please find attached the updated closure and reclamation plan for the former waste disposal facility within the Community Government of Behchokò. As discussed, this file is unsecured for online posting.

Feel free to reach out to me if you have any questions or comments.

Regards,
Yannick
