Hi Treeva,

Board staff noticed in the below SNP report that the results appear to be related to the Edzo sludge Characterization requirement of Part D, Condition 13 of the Licence and Schedule 2. Is that the case? If so, could you please provide a cover letter to accompany the SNP report. The cover letter should outline the reasons why the Community Government of Behchoko (CGB) is submitting this report (i.e., to satisfy Part D, Condition 13 of the Licence) and include a conformity table that outlines how the submission addresses the requirements (i.e., schedule 2).

Board staff also noticed that Total Kjeldahl Nitrogen (TKN) and % solids do not appear to be included in the results as required by Schedule 2 of the Licence. If this was intentional, please include rationale in the cover letter as well.

As always, don't hesitate to reach out to Board staff if you have any questions.

Masi,

Jessica Pacunayen, M.Sc.
