Subject: Upcoming deadlines for water licence compliance

Good afternoon John,

As per your last inspection report for the communities of Behchoko (Rae and Edzo), I am writing to remind you of the upcoming deadline of September 30th, 2015.

There are several outstanding requirements that need to be completed to be in compliance with your water licence WW2014L3-0002. These include;

A geo-technical inspection of lagoon structures, this was due June 30th 2015 and was extended to Sept 30th, it was also noted that work does need to be done for the Rae structure – these repairs need to be completed before winter – as per Nahum’s email of August 17th.

Edzo lagoon needs to be dredged and brushed, including work on the engineered wetlands.

A Landfarm management and O&M plan was due May 1st and has also been extended to Sept 30th.

A road blockage to the old land farm site is required and also due on the 30th.

Please advise on any work that has been done in any of these areas and/or plans to meet these important work issues. Thanks!

Heather Beck
