Subject: Lagoon work

Hi there Jessica,

I just got a call from AECOM regarding work commencing at the Rae lagoon for building up the walls where slumping is occurring, I believe that this falls under regular maintenance. They are getting the clay from Russell Lake area. Please advise if you have any questions or concerns. The work is to commence within the next couple of weeks.

After this work AECOM is contracted to complete the Geotechnical inspections for both the Rae and Edzo lagoons.

Have a good day!

Heather Beck
