Dear Sir or madam:

RE: Renewal of Land Use Permit W2008C0004, Northwest Territories

We are applying for a renewal of our land use permit W2008C0004 which expires on April 20, 2015. We confirm that the scope of the work remains the same as before and has not changed from that stated on the previous permit application for W2008C0004. The area affected will be reduced in size from the previous permit application.

We are applying for a preliminary screening exemption in relationship to the renewal of the land use permit.

GGL's Revised Spill Contingency Plan version 1.1 is uploaded.
