Guiding Principles

The following principles will guide the Work Plan of the WLWB throughout this water licence renewal process:

- The licensing process shall be carried out in a timely manner and shall have regard to the protection of the environment in consideration of the impacts of proposed undertaking and the importance of conservation to the well being and way of life of the aboriginal peoples of Canada (Section 35 of the *Constitution Act*, 1982);
- The Board will consider changes to the Water Licence based on evidence and rationale submitted by the company or any other party;
- The Board may also consider changes it considers appropriate to meet its mandate, applicable policies, and to ensure consistency in decision-making throughout the Mackenzie Valley; and
- The Board will actively continue to ensure compliance with existing Water Licence requirements.

Work Plan Objectives

The Work Plan is to achieve the following objectives:

- Evaluate the adequacy of the current Water Licence terms and conditions;
- Compile a broad range of input through the review process;
