Dear Dustin Chaffe,

Re: Sable Development - Arctic Canadian Diamond Company Ltd. – Land Use Permit – Final Plan Request – Mining Exploration – Ursula Lake, NT

According to the Wek'èezhì Land and Water Board (Board) records, Land Use Permit W2016D0003 (Permit) for the Sable Development located at Ursula Lake, NT (Project) will expire on May 11, 2023.

As per subsection 26(6) of the Mackenzie Valley Land Use Regulations (MVLUR), no further extensions to the term of this Permit will be considered.¹ Site restoration, clean up, and removal of equipment, materials, buildings, etc. must be completed before the Permit expires.

Should additional time be required to complete the Project, refer to the Land and Water Boards (LWBs)' *Guide to the Land Use Permitting Process*² for more information on applying to renew a land use permit.

A final plan must be submitted to the Board within 60 days of the expiry of the Permit, as per section 29 of the MVLUR. The final plan must include:

1. A map, normally at a scale of 1:50,000, showing the location, area, and distances of all Project activities. All maps must have the north indicator, scale, and coordinates clearly marked;
2. GIS data, if available;
3. A summary of the hectares utilized in each aspect of the Project.

¹ See also the WLWB (www.wlwb.ca) 'External Correspondence' webpage for the LWBs' [Reasons for Decision: Interpretation of Subsection 26\(6\) of the Mackenzie Valley Land Use Regulations](#).

² See the WLWB Apply for Permit/Licence webpage for the LWBs' [Guide to the Land Use Permitting Process](#).

For more information on final plan requirements and processes, refer to the LWBs' *Guide to the Land Use Permitting Process*.³

Please contact Rhiana Bams via [email](#) or at (867) 765-4583 with any questions or concerns regarding this letter.

Yours sincerely,
