Item Description:	<p>The Government of the Northwest Territories - Department of Infrastructure (GNWT-INF) has submitted a request to amend Land Use Permit (Permit) W2016E0004. GNWT-INF is requesting to amend Condition #74 to increase the maximum fuel on site from 106,000 litres (L) to 235,099 L. In support of its amendment application, GNWT-INF has also submitted Version 2.0 of its Spill Contingency Plan (Condition #77 of the Permit) to reflect the proposed fuel amounts (see Appendix B of Application).</p> <p>Reviewers are invited to submit comments and recommendations using the Online Review System (ORS) by the review comment deadline specified below. If reviewers seek clarification on the submission, they are encouraged to correspond directly with the Permittee prior to submitting comments and recommendations.</p> <p>Please provide comments and recommendations on the documents linked below. Reviewers may also wish to consider providing an overarching recommendation regarding whether they are in support of the submission, to provide context for comments and recommendations and to assist the Board with its decision.</p> <p>Under the Preliminary Screening Requirement Regulations of the Mackenzie Valley Resource Management Act (MVRMA), the Board must conduct a preliminary screening for an amendment request, unless it is exempt from preliminary screening in accordance with the Exemption List Regulations. Reviewers are encouraged to provide comments and recommendations (e.g. on impacts and mitigation measures) to assist with the completion of the</p>

	<p>preliminary screening. The most recent preliminary screening that was approved by the Board is located under Document(s) below.</p> <p>All documents that have been uploaded to this review are also available on our public Registry. If you have any questions or comments about the ORS or this review, please contact Board staff identified below.</p>
