Dear Ziaur Rahman,

**Re: Decision on Version 1.2 of the TASR Waste Management Plan**

The Board received Version 1.2 of the Government of the Northwest Territories - Department of Infrastructure's (GNWT-INF) Waste Management Plan for the TASR Project on October 8, 2019. No comments or requests to initiate a public review were received. The Wek'èezhìi Land and Water Board (Board) has thus approved Version 1.2 of the Waste Management Plan.

Based on Version 1.2 of the Waste Management Plan, the Board understands that GNWT-INF is approved to dispose of non-hazardous waste related to the TASR Project for 30 months at the City of Yellowknife's landfill and sewage related to the TASR Project into Fiddler's Lake Lagoon until June 1, 2020. GNWT-INF should ensure that these details are included in the next version of the Waste Management Plan. Although the Board has approved Version 1.2, it reiterates that the on-site sewage lagoon for the main camps, as described in the Waste Management Plan, is not yet approved. The Board is still expecting GNWT-INF to submit the forthcoming Water Licence Amendment Application for an on-site sewage lagoon committed to on August 21, 2019.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "Joe Mackenzie".

Joe Mackenzie  
Chair, WLWB
