RE: Land Use Permit W2017C0005 Amendment Request

Dear Ms. Jokela,

Arctic Star Exploration Corp. would like to amend land use permit W2017C0005. The purpose of the amendment is to include the addition of claims staked contiguous to the claims in the existing permit adding them to the exploration property known as *Diagras*. There is a total of 27 additional claims covering 25,750.95 hectares. Details can be found in the Letter to Interested Parties 25 June 2021.

The requested amendment specifically relates to Part C: Condition 3 of the permit *"The Permittee shall not conduct this land-use operation on any lands not designated in the complete application."* The Company would like the new claims described above to become part of the 'complete application'.

The Company does not anticipate any potential environmental impacts or additional mitigations associated with the proposed amendment that are not already addressed in the Conditions of the existing permit. The Company also does not anticipate additional closure costs or the requirement for updated versions of any Plans as a result of the amendment.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "David Kelsch", with a stylized flourish at the end.

David Kelsch
