Subject: RE: Wekweèti-Gameti- Information Request

Hi Anneli,

MACA will be providing responses to the Information Requests (IRs) on behalf of the communities, as AWC contract on project has already been completed. To provide more informed responses to IRs, we request the deadline to be delayed until February 16, 2023. It will allow us to conduct site visits to both communities to investigate and determine the potential options for redirecting the CIP waste as well as its operational impacts on the treatment systems. During these visits, we will also collect full set of samples of the CIP wastewater, which will provide more current characterization of CIP waste and to review the potential impacts of overland flow.

Thanks
