1.0 INTRODUCTION

This document is Nighthawk Gold Corp's (Nighthawk's) Engagement Plan for use at the Indin Lake Gold Project (the Project), encompassing camp operations at the Colomac Camp, fuel storage at the Colomac, Damoti Lake and Diversified camps and exploration activities in the Indin Lake region in the Northwest Territories (NWT). Nighthawk is a junior gold exploration company whose primary exploration property is the Indin Lake Gold Project located in the Wek'èezhìi region of the NWT. The Wek'èezhìi region is the management area of the Tłı̄chǫ Government, with the Wek'èezhìi Renewable Resources Board (WRRB) having the wildlife co-management authority for the region as established by the Tłı̄chǫ Agreement. The Tłı̄chǫ Government represents the communities of Behchokǫ, Gamètì, Wekweètì, and Whatì. The North Slave Métis Alliance (NSMA) represents the rights of the Métis people of the Great Slave Lake area, primarily in the region north and east of Great Slave Lake, NWT.

This Engagement Plan is intended to outline Nighthawk's engagement to respectfully and effectively collaborate and inform affected parties. It was prepared following the Mackenzie Valley Land and Water Board's Engagement Guidelines for Applicants and Holders of Water Licences (MVLWB 2014), the Land Use Permits and Engagement and Consultation Policy (MVLWB 2013), and the Tłı̄chǫ Government Consultation and Engagement Guidelines (Tłı̄chǫ Government 2019).

The Mackenzie Valley Land and Water Board (MVLWB) defines engagement as "the communication and outreach activities a proponent undertakes with affected parties prior to and during the operation of a project". The level of engagement should reflect the scale, location and nature of a proposed activity (MVLWB 2014). An affected party is defined as "a party that is predicted to be affected by a proposed project, such as an Aboriginal organization/government, an individual occupying land for traditional purposes, a private landowner, or lease holder" (MVLWB 2014).

Updated Engagement Records will be provided as required.

2.0 AFFECTED PARTIES AND ENGAGEMENT TRIGGERS

This section summarizes the engagement triggers as well as engagement purpose and format for each of the affected parties. The affected parties for the purposes of this Engagement Plan are:

- Tłjchq Government
- Wek'èezhì Renewable Resource Board
- North Slave Métis Alliance

Nighthawk understands that engagement is a process that is ongoing through the lifetime of a project. The engagement process for this Project started in 2012 and will continue throughout the upcoming phases of the Project. Nighthawk has been and will continue to remain in contact with the affected parties, including discussions on the format of engagement. Triggers, purpose and format of engagement with the affected parties are listed in Tables 1 to 3. Contact information is provided in Table 4.

3.0 ENGAGEMENT RECORD

A summary of all engagement undertaken for the Project based on the engagement triggers described in Section 2 is recorded in an Engagement Record. The Engagement Record includes an entry for each engagement, including the following information:

- Date of engagement
- Name of party / group
- Permitting stage
- Issue or topic of the engagement
- Resolutions, actions, comments
- The type of engagement (e.g., written notification, phone calls, emails, meetings) and relevant documents
- Attendees / individuals involved

Further to this, the Engagement Record should also include an Engagement Summary to document the discussion and resolution of issues. Engagement Summaries will be included as required.
