Hi Denise,

Nighthawk's careful consideration of the Information Request (IR) is appreciated as this information will help inform the Board's decision on the interim Closure and Reclamation Plan Version 3.3. Board staff will now expect a response to the IR by 5 PM MST on April 1, 2021.

Board staff would appreciate responses to the Information Request from the GNWT-ENR, ECCC, and the TG by March 12, 5 PM MST.

Masi!

**Subject:** RE: WLWB Information Request RE: Nighthawk Gold Corp. - Damoti - Interim Closure and Reclamation Plan - Version 3.3

Hi Meaghan:

Nighthawk requires additional time beyond the 12 March 2021 deadline to provide a considered response to the information requests. While part of the response includes consideration by Nighthawk of the costs and benefits of initiating remediation before there is certainty regarding the operations at Colomac, we also need to work with our consultants to develop the remediation

triggers requested by the WLWB. This will likely require analysis of the historic water quality data from the Damoti site to characterize effects to the environment from temporary closure, confirm trends in water quality, and develop quantitative triggers from this data.

We respectfully request an extension to April 1, 2021. I look forward to hearing from you and appreciate your consideration.

Kind regards,
