Subject: RE: Request for extension to submit all WLWB Annual Water License Reports by February 22, 2021

Hi Memory,

Thank you for your email and giving Board staff a heads up on the progress of the outstanding submissions. An extension isn't possible for outstanding submissions; however, Board staff note that the CGG has proposed to submit the 2020 Annual earlier than the March 31 deadline. Board staff have not identified any reason why the 2020 Annual Report couldn't be submitted earlier as long as all the required information is included (i.e., those required by Schedule 1 of the [Licence](#)). We look forward to receiving the incoming reports.

If you have any further questions or concerns, please do not hesitate to reach out to Board staff.

Masi,

Jessica Pacunayen, M.Sc. (she/her/hers)

Subject: Request for extension to submit all WLWB Annual Water License Reports by February 22, 2021

Hi Jessica,

I would like to request permission to submit the outstanding annual water reports (revised and initial for 2019) with the 2020 report before 28 February 2021. At the moment, we are understaffed so I have an unusually high workload until mid-February when additional staff will be available. Meanwhile, I am collecting the required information for the prior years so that I can address the highlighted shortfalls. I have sufficient information for the 2019 and 2020 calendar year so that part is covered. I have submitted a request for the 2016 and 2018 SNP reports today. If I need more information or guidance while completing these reports, I will contact you.

Your consideration for this request will be greatly appreciated.

I will hear from you.

Regards,

Memory Murefu
