NOTE TO FILE

File Number	W2018W0001
Type of Operation	JR Enterprises
Location	KM 185, Hwy #3, NT

A follow-up inspection of the wood cutting operation was conducted on June 5th, 2024 by Inspectors Clint Ambrose and Karine Gignac. The inspection was carried out to follow up on previously noted concerns regarding a small spill to clean and the requirement to remove 2 motorhomes from the site.

At the time of the inspection, work was in progress. The following were observed:

1. The 2 motorhomes have been removed from the land use operation. The debris mixed in the sand (where the motorhomes were located) must be pick-up and taken for proper off-site disposal (Figures #1 to 3).
2. The small spill near the blue camper (Figure #4), still requires excavation for proper off-site disposal of the impacted sand.
3. The Inspectors were pleased to note that all equipment parked on site is equipped with drip trays (Figures #5 through 8) and no others concerns were noted.

The Inspectors are confident that the work to address these concerns will be completed prior the next follow-up inspection, planned for the fall 2024.

If you have any questions or concerns, please contact the undersigned at (867) 767-9187 ext. 24189 or Mr. Clint Ambrose at (867) 767-9188.

Sincerely,

Karine Gignac, CD
Resource Management Officer II (Inspector)
Land & Water North Slave Region
GNWT – ECC
