

Rayrock Closure Objectives & Criteria Workshop (W2020X0005 & W2020L8-0003)

March 15 – March 17, 2022 – Chateau Nova – Caribou Room

Workshop Purpose & Objective

This workshop is to provide an open and collaborative forum where Parties can discuss their concerns and ask questions about the closure objectives and criteria proposed by Crown-Indigenous Relations and Northern Affairs Canada – Contaminants and Remediation Division (CIRNAC-CARD). It is the Board's hope that an open and collaborative discussion will increase each Party's understanding of the issues and the perspectives of others. Although it would be ideal if as many issues as possible were resolved during this session, Parties are not bound by comments made during the workshop. Please note that this workshop is not a public hearing; Board members and their legal counsel will not be participating.

Workshop Logistics

CIRNAC-CARD provided [Draft Rayrock \(Kwetjı̄paà\) Remediation Project Closure Criteria and Objectives](#) to address the Board's [September 30, 2021 Reasons for Decision](#). Parties are expected to review the materials in advanced and come prepared to discuss.

As a result of the current COVID-19 situation, the Workshop will be a hybrid in-person and Zoom format. Participants attending in person will be required to:

- Complete the WLWB's COVID-19 screening protocol and provide proof of vaccination and photo ID upon arrival;
- Bring a mask that must be worn when not seated or unable to maintain physical distancing (i.e., 6ft/2m from another person); and
- Sign in each day and provide contact information should subsequent contact tracing be required.

Note: The agenda has been created based on information available at this time and is subject to change. Please note that the times provided below are all approximate.

Agenda

Day 1: March 15, 2022
