Toronto, ON M5H 3L5

**Attention: John McBride**

**File Number** W2021C0009  
**Type of Operation** MINERAL EXP - drilling  
**Location** Winter road to Colomac

Dear John McBride,

An inspection of the winter road to Colomac (from the Wekweeti winter road) was conducted by Inspectors Clint Ambrose and Karine Gignac on March 18<sup>th</sup>, 2025. The inspection was carried out to ensure operating conditions annexed to the above noted land use permit are being adhered to during this land use operation. The findings of the inspection were discussed on site with Mr. Paul Bingham (Permittee) and with the sub-contractor (Mr. Mark Rocher).

The Inspectors received notification of the work starting on January 22<sup>nd</sup>, 2025. At the time of the inspection, the road was completed and open for traffic. No gouging or rutting was observed during the inspection, and adequate ice coverage (shoulder to shoulder) was observed on the road. There were no damaged to the duff layer observed and no obvious spills were noted during the inspection. The road's integrity must be carefully monitored as the sun load is increasing and traffic suspended if the protective cover can no longer be maintained adequately. The sub-contractor, Aurora Telecom, currently has 4 staff at the Matt Berry camp for the purpose of the winter road maintenance operations. Notification is to be provided to the Inspectors when the road is due to shut down at the end of the season.

Overall, the Inspectors are pleased with the manner in which this land use operation is being conducted, and no concerns were noted during the inspection.

If you have any questions or concerns, please contact the undersigned at (867) 767-9187 ext. 24189 or Mr Clint Ambrose at (867) 767-9188.

Sincerely,

Karine Gignac, CD  
Resource Management Officer II (Inspector)  
North Slave Regional Office  
GNWT – Department of Lands
