Hi Alexis

We will accept domestic waste generated on the winter road however we will not accept any hazardous/contaminated waste.

Thanks

Subject: RE: Acceptance of domestic waste in community landfill

Good afternoon,

I wanted to follow up on the previous email regarding acceptance of domestic waste in the community landfill. Is it possible to get confirmation that the community of Wekweèti will continue to accept the domestic waste garbage generated during the Wekweèti winter road construction, operations and maintenance?

If you have any questions please let me know.

Thank you,

Subject: Acceptance of domestic waste in community landfill

Good morning,

The Department of Infrastructure constructs, operates, and maintains a number of highways and winter roads throughout the Northwest Territories including the Wekweètì Winter Road. INF contractors building and maintaining that road produce small amounts of domestic waste garbage, and carry it out by vehicle for disposal at the community landfill site. We will be re-applying to establish the Wekweètì Winter Road permit for another five years. Part of the application process is indicating to the Wek'èezhì Land and Water Board that the Community of Wekweètì will accept this waste. Would you be able to confirm that the community of Wekweètì will continue to accept the small amounts of domestic waste garbage? A brief email response would be satisfactory, I appreciate your assistance.

If you have any questions please let me know.

Thank you,
