### Work Plan

<b>File Number</b>	W2021L2-0004, W2021L2-0005, W2021C0009
<b>Applicant</b>	Nighthawk Gold Corp.
<b>Project</b>	Nighthawk – Type A Water Licence Application (federal and non-federal) and Type A Land Use Permit Application
<b>Location</b>	Indin Lake, NT
<b>Activity</b>	Mining and milling; mineral exploration
<b>Date of Work Plan</b>	July 21, 2022
<b>Work Plan Version</b>	Version #5

#### Purpose of the Work Plan

To outline the processes and timelines to be followed for this regulatory proceeding.

#### Background

On October 26, 2021, the Applicant submitted Applications for two type A Water Licences (federal and non-federal Licences) and a Type A Land Use Permit (Permit) (the Application Package) for the Project to the Wek'èezhii Land and Water Board (Board). On November 3, 2021, Nighthawk submitted an updated Land Use Permit Application which included an update to the RECLAIM estimate. On November 5, 2021, the Application Package was deemed complete.

#### Scope of the Project

The scope of the Project includes advanced exploration activities at the Indin Lake Gold Property, NT as outlined in the Application Package:

- a) advanced mineral exploration, including the use of water and deposit of waste for a camp, use of satellite camps, and use of water for drilling;
- b) maintenance, reclamation, and closure, including management of waste rock, ore, and underground portal, and any associated Seepage or discharge of water;
- c) construction, maintenance, and use of winter road and access roads;
- d) use and storage of explosives for trenching and bulk sampling if required;
- e) construction, operation, and maintenance of winter roads and spur roads;
- f) use and storage of fuel; and

- g) use of vehicles and equipment.

### **Guiding Principles**

The following principles will guide the Board's regulatory proceeding:

- The Board will carry out the regulatory proceeding in a timely manner and in accordance with the Boards' [\*Rules of Procedure\*](#);
- The Board shall consider the impacts of the proposed Project on and the importance of conservation to the wellbeing and way of life of the Indigenous peoples of Canada (section 35 of the *Constitution Act, 1982*);
- The Board will review the Application Package and develop the licences and permit based on the evidence and rationale submitted by the Applicant and other Parties; and
- The Board will develop the licences and permit in accordance with the Board's mandate and applicable policies to ensure protection of the environment and, where possible, consistency in decision-making throughout the Mackenzie Valley.

### **Work Plan Objectives**

The Work Plan objectives are:

- Compile a broad range of input through the review process;
- Ensure adequate information is gathered to complete the Board's regulatory proceeding; and
- Facilitate a thorough, inclusive, and timely regulatory proceeding.

### **Opportunities for Community Engagement**

- The Board requires the Applicant to engage with potentially affected parties – including communities and Indigenous organizations and governments – regarding the Application Package prior to submission;
- The Board will distribute the Application Package, a draft Work Plan, and draft Licences and a draft Permit for public review using the LWB Online Review System (ORS);
- The Board will place a notification(s) regarding the review process in the newspaper;
- The Board will coordinate a technical workshop to address specific issues that require more focused review and discussion;
- The Board will hold a public hearing and will place a notification regarding the hearing in the newspaper; and
- The Board will hold any other consultation or engagement activity that the Board considers appropriate.

### **Regulatory Proceeding Timelines**

Subsection 47(1) of the *Waters Act* and subsection 72.18(1) of the MVRMA requires the Board to make a decision on a water licence application within a period of nine months after the day on which an application is deemed complete and the review process begins. Based on section 28 of the *Federal Interpretation Act*, this is equivalent to 275 calendar days. The Board's day count stops whenever the Board requires the Applicant to provide information for the regulatory proceeding to continue (signified

by the red shading in the table below). Once that information has been provided, the Board’s day count resumes (signified by the green shading in the table below). Significant milestones have also been bolded in the table below.

The Work Plan table below sets out the main process steps and indicates the responsible Party and the anticipated completion date for each item.
