File Number **W2021Q0011**
Type of Operation **Quarrying / Winter Roads / Camps**
Location **Snare Forks to Kilometer 12 of the Wekweètì Winter Road, NT**

Dear Matthew Miller,

An inspection of the Snare Forks to Kilometer 12 of the Wekweètì Winter Road, NT was conducted by Inspectors Clint Ambrose and Karine Gignac on March 1st, 2023. The inspection was carried out to ensure operating conditions annexed to the above noted land use permit are being adhered to during this land use operation.

At the time of the inspection, the road's first pass and dragging was completed and no equipment was working on the road. The Inspectors were informed that the operations will resume upon the availability of one or more water trucks. No gouging or rutting was observed during the inspection, and only a minor amount of scrapped duff layer, at one of the pull-out, was noted.

An up-date had since been received (March 7th, 2023) via email that icing had started on the road. The Inspectors are confident Condition #11 of the land use permit will be met. It is anticipated that the high level of communication will be maintained, and that a confirmation will be provided upon completion of the road construction.

If you have any questions or concerns, please contact the undersigned at (867) 767-9187 ext. 24189 or Mr Clint Ambrose at (867) 767-9188.

Sincerely,

Karine Gignac
Resource Management Officer II (Inspector)
