Subject: RE: kdefrancis@wlwb.ca | Arctic - Sable Underground - Water Licence Amendment and Land Use Permit Application - IR #10
Date: August 6, 2024 1:35:05 PM

Hello Ryan and Annelie,

Burgundy would like to make a request to extend the submission timeline for the Sable Underground Projects Water Licence Amendment Information Requests #2 and #10 by one week to August 14, 2024.

As discussed last week, even though the specific contents and requests in IR #10 were not discussed during the Technical Session on July 23 and 24, Burgundy respects that the Board is able to issue an IR at any stage of the Water Licence Amendment proceeding. However, the effort required under the newly issued IR#10 will take more than one week to complete. Further, due to the long weekend within the response period, a number of the technical staff were on vacation during this period. As the workflow in responding to IR#2 is closely linked to IR#10, Burgundy is only able to submit the responses to IR#2 along with IR#10.

Please let me know if you have any questions.

Regards,
William

[External email] Please do not click links or open attachments unless the sender is recognized and content is safe.

K'omqòdqò hojzł (Good morning) Sheila,

Please see the linked [Information Request #10](#) in relation to Arctic Canadian Diamond Company Ltd.'s (Arctic's) type A Water Licence Amendment and Land Use Permit Application for the Sable Underground Project at the Ekati Diamond Mine. A response to the IR is due on **August 7th, 2024**.

At this time, no changes to the [Work Plan](#) (beyond responses to IR #2 and #10 being due on August 7, 2024) are being proposed. However, should Arctic require additional time to respond to IR#10 and/or new IRs result from upcoming IR responses, changes may be necessary. At this time, Board staff have booked a contingency public hearing venue and time for September 25 and 26, 2024.

Masi,

Kassandra DeFrancis, BEng., BSc., EIT
