Dear Mark,

On February 21, 2022, the Wek'èezhì Land and Water Board (WLWB or Board) staff received the Application for Land Use Permit (Permit) W2022X0002¹ for the Whatì Falls Project (Project) from the Tłjchq Government Department of Culture and Lands Protection (TG).

The Application has been reviewed and found to be lacking information required under section 19 and paragraph 22(1)(a) of the Mackenzie Valley Land Use Regulations (MVLUR). For the Application to be considered complete, refer to the MVLWB *Guide to the Land Use Permitting Process*² (Guide) and submit the following information to the Board's office:

1. **Project Description:** Inconsistencies have been identified between the Project Description and the Equipment list provided in Section 12 of the Application Form. Please review and revise the Application Package to address these and include a Project Description that identifies the principal activities and development components of all phases of the Project.
2. **Disturbed Area:** On the Application Form, indicate the total number of hectares the TG is proposing to disturb.

¹ See the WLWB Online Registry for [W2022X0002](#)

² See the WLWB Policies and Guidelines webpage for the MVLWB [Guide to the Land Use Permitting Process](#).

3. Camp: Review and revise information provided related to camp infrastructure that will be used and, if using the camp associated with another Project, provide evidence of an agreement.
4. Equipment: On the Application Form, include the maximum weights of equipment the TG is proposing to use.
5. Fuel: On the Application Form, include the maximum volume for each fuel type listed.

Upon receipt of this information, the Application will be reviewed as per the *Mackenzie Valley Resource Management Act*. If this information is not provided within 90 days of the date of this letter, staff will return the Application as per section 25 of the MVLUR.
