**Logistics for Remote Participation:**

**Set-up:**

- Each participant should prepare and test their video and audio ahead of time, and each time they log in to the session, to ensure their devices are functioning properly and are fully charged or plugged in.
- Zoom will download automatically when the participant starts or joins the first Zoom meeting and is also available for manual download [here](#). Participants should download the current version of Zoom before the Session to ensure all functions are available.
- For assistance using Zoom, participants can review the following [Zoom Video Tutorials](#).
- To participate only by phone, participants can call one of the Zoom teleconference lines (provided in the Zoom link from Board staff).
- Participants that are experiencing technical difficulties due to poor internet connections can limit videoconference participation to audio only or call in by phone as noted above.
- Each participant is asked to use the following as their screen name: first and last name, followed by the acronym of their respective organization (e.g., Paula Green – WLWB)
  - This can be accomplished by selecting the three dots in the upper right-hand portion of the viewing pane and selecting “rename.”

**Etiquette:**

- A session facilitator will guide the discussion and order of speaking. To minimize disruption, participants are asked to follow all instructions on turn-taking, and only speak when the facilitator has indicated it is their turn. Each organization/participant will be given opportunities to speak.
- If a participant would like to speak or has a follow-up question, they can use the Zoom group chat (visible to everyone) to notify the facilitator, who will add them to the speaking order.

---

<sup>1</sup> See WLWB Online Registry for [Snare Hydro - WL Renewal Application - Work Plan - Version 3 - Oct 6 23](#)

- To minimize background noises and feedback, participants should always keep their microphone/headset muted when not speaking. Participants should only unmute when the facilitator has indicated it is their turn to speak.
- A remote session can cause participation fatigue. The Board appreciates participants' professionalism, cooperation, and collaboration during the session.

***Technical Difficulties:***

- In the event of a disruption to the session or technical difficulties, Board staff will contact the representative of each organization by cell phone, text, or e-mail to communicate the contingency plan if necessary.
- If a participant is having technical difficulties, they should notify the representative of their organization. The representative should contact Board staff directly, or by using the chat option of Zoom.
