Subject: NTPC - Snare Draft Work Plan Comments

Hello,

Please see GNWT-ECC comments on NTPC Snare Type A Water Licence Renewal application Draft Work Plan below:

Topic: Pre-Hearing Conference

Comment:

The pre-hearing conference is significantly more effective in planning for the public hearing if it occurs after interventions are submitted, and closer to the hearing date. This allows parties to have a better sense of their main issues of concern, and therefore a better sense of how long they will need to present their recommendations.

Recommendation:

The Government of the Northwest Territories (GNWT) Department of Environment and Climate Change (ECC) recommends that the pre-hearing conference be held after interventions are submitted, and as close to the hearing as possible.

Topic: Draft Licence and Closing Arguments Deadlines

Comment:

GNWT-ECC notes that the closing arguments are due only one week after the Applicant's comments on the draft water licence are due. GNWT-ECC requests at minimum, one week be added between these deadlines to give Parties more time to consider draft water licence comments in their closing arguments.

Recommendation:

GNWT-ECC recommends that the closing arguments be due two weeks after the deadline for Applicant's comments on the draft licence.

Thank you,
Shakita

Thanks so much!

Workplan looks great, thanks again and looking forward to the next steps

Cheers,

Matt
