Subject: Ekati SUG Early Work Permit Timeline
Date: July 9, 2024 11:18:28 AM
Attachments: [image001.png](#)

Hi Ryan / Anneli,

Kassandra and I had a call earlier on the starting date for the Ekati SUG Early Work Permit. I understand we indicated the portal construction may start as of August 1 in the application. However, I would recommend the start date for the permit would be the same as the issuance date (today) – that will give the project team an assurance for the project planning, i.e. if they can be early in the portal construction in July, they would have the permission for doing so.

Many thanks,
William
