Zone 65 PCI Background Report Engagement Summary – Tulita (via Zoom videoconference)

Date: October 30, 2020, 11:00 AM-12:10 PM

Participants:

Justin Stoyko, SLUPB GIS Analyst/Planner

Heidi Wiebe, SLUPB Project Manager

Frederick Clement Sr., Member, Fort Norman Metis Land Corporation

Judith Bird, Executive Director, Fort Norman Metis Land Corporation

Meeting Summary:

Judith: Would really like the Tulita Dene Band to be engaged. It is important to get some feedback from them. Would be comfortable with Special Management Zoning, considering the values in the areas (both northern and southern areas), as it provides flexibility for the K'asho Got'ine District to provide for future development should they want to, while providing some protection for the area. Would also be ok with whatever is put forward by K'asho Got'ine orgs. Water is the most important feature. For instance, near Tulita, they have restrictions on taking water from Stewart and Tate Lake because previous water withdrawal led to low water levels. Watershed management should be a priority for the areas being rezoned.

The meeting ended around 12:10 PM.
