Re: Land Use Permit G16X006, Gwich'in Park Improvements and Quarrying

Length of time requested:

This letter is a request for a two year extension of the above mentioned permit.
The purpose of the extension is to continue the development of Gwich'in Territorial Campground.

Reason for the extension:

Specifically, the extension is for upgrading the existing quarry pit into a recreational area and formalizing another area currently used local user groups into structured group camping area.
The activities proposed are consistent with the existing development permit and compliment the current use of the area.

The status of each project is as follows:

Group Camping Area – prepare a design and cost estimate for project in 2022. Develop the group camping area in 2023.

Recreational Area – prepare a conceptual design in and conduct an aerial drone survey in 2021. Landscape the site in 2022. Install site amenities in 2023.

Find attached an updated Engagement Record for the extension.

If there are any questions, let me know.
