---

Lisa,

Understood.

I cancelled my inspection for August since helicopters were needed elsewhere. I am still in Yellowknife and will arrange an inspection once the fire is under control and aircraft are available.

Cheers,

**Tom Bradbury**

[OFFICIAL]

Hi Jacqueline, Tom,

Hope everyone is doing ok and safe...

Just wanted to provide a quick update on Snap Lake – the helicopter we had on-site on Thursday was called back to Yellowknife to assist with the wildfire.

Therefore, it is unlikely that the August AEMP will be completed to it's full extent – this includes water and plankton sampling at Northeast Lake, water sampling at Mackay Lake, as well as completing the hydrology program.

We were also informed that some samples that were taken in August, did not make it to ALS Yellowknife prior to their closure and may be lost.

We are attempting to transport 1 cooler of samples to ALS Edmonton today.

Please don't hesitate to reach out should you have any questions.

Thanks,

Lisa Tran
