Subject: Request for Revised Management Plan Submittal Extension - MV2023X0014

Hi Tyree,

Thank you for taking the time to meet with us last week. As per our discussion we would like to request a deadline extension to submit our revised Waste Management Plan, Spill Contingency Plan and Erosion and Sediment Control Plan. As per the conditions in our Land Use Permit MV2023X0014 these are due August 2, 2023.

We have awarded our remediation contract and work will not begin on site until June of 2024. We would like to take the time to ensure our contractors plans are developed to meet the requirements of the land use permit and ensure all of the information required is included. These contractor's plans would need to be reviewed as well so rather than submitting a revised plan now and then another updated one later in the year and doubling the review requirements we would like to ask for an extension for the plans to be submitted by November 30, 2023. This still allows a lengthy time period for review and approval before work in June 2024.

If you require additional information please let us know.

Thank you.

Good morning Amy and Sam,

Board staff are in support of your extension request. Thank you for keeping us updated on the progress of the project.

Have a great day.

Tyree
