AWC-2018-009-PAR-J-76-WID1931
Paramount Anadarko Bovie J-76 (WID 1931)

Paramount Resources Ltd. (Paramount) planned to abandon the Bovie J-76 well at the same time as Celibeta No.2 H-78 (WID 156) in 2019. Unfortunately, the abandonments were not undertaken as circumstances did not allow for the work to be completed prior to spring break up. Paramount plans to abandon both wells before March 31, 2020.

A current Land Use Permit and Water Licence is in place for the access to the well and operations on the Bovie J-76 well. In addition, the Operations Authorization and ACW for both wells are current throughout the planned abandonment operations.

In discussions with Mr. Heppelle, I have confirmed the Bovie J-76 well is compliant with the OROGO Well Suspension and Abandonment Guidelines and Interpretation notes.

Should you require additional information regarding this application and project please contact me.
