Ryan Munro
Manager, Abandonment Engineering
Canadian Natural Resources Ltd.
SUITE 2100, 8800 – 2 ST SW
CALGARY AB T2P 4J8

July 31, 2023

Dear Ryan Munro:

Requirements Complete – ACW-2019-009-CNRL-K-77-WID1862

On July 26, 2023, the Office of the Regulator of Oil and Gas Operations received a report on gas migration testing and surface casing vent monitoring for the Netla K-77 well (WID1862) from Canadian Natural Resources Ltd. (CNRL). The report indicates that the well shows no signs of gas migration or surface casing vent flow.

The report meets term 15 of CNRL's well approval for the abandonment of the Netla K-77 well. All terms of the approval have now been met.

CNRL may proceed with cutting and capping the Netla K-77 well. Once the well is cut and capped, CNRL may submit a Change of Well Status request to OROGO using the form on OROGO's [website](#).

Sincerely,

Pauline de Jong
Regulator

- c. James Ireland, CNRL
Terran Bernhard, CNRL
Jason Tymo, CNRL
