Manager, Abandonment Engineering  
Canadian Natural Resources Ltd.  
Suite 2100, 8800 – 2 ST SW  
CALGARY AB T2P 4J8

November 6, 2023

Dear Ryan Munro:

**Well Status: Abandonment of the Netla K-77 Well  
(WID1862) (ACW-2019-009-CNRL-K-77-WID1862 Variation 6)**

On October 27, 2023, the Office of the Regulator of Oil and Gas Operations (OROGO) received a Change of Well Status request for the Netla K-77 well (WID1862) following the termination of the surface casing vent flow (SCVF) and the cut and capping operations. This request included the daily reports for the cut and cap operations. On July 31, 2023, OROGO confirmed that the SCVF on this well had been terminated based on the information provided by Canadian Natural Resources Ltd. The reports and request have been reviewed and satisfy the requirements of section 89(1) of the *Oil and Gas Drilling and Production Regulations*.

Our records have been updated identifying the status of this well as Abandoned and in compliance with the Downhole Well Abandonment Requirements (Section 6A) of the *Well Suspension and Abandonment Guidelines and Interpretation Notes*.

Sincerely,

Pauline de Jong  
Regulator
