Dear Ryan Munro:

**Well Status: Abandonment of the
Liard P-16 Well (WID1976) (ACW-2019-011-CNRL-P-16-WID1976 Variation 10)**

On July 23, 2024, the Office of the Regulator of Oil and Gas Operations (OROGO) received the results of the surface casing vent flow analysis and a Change in Well Status request for the Liard P-16 well (WID1976). On August 6, 2024, OROGO received confirmation of the installation of an updated well abandonment sign that complies with section 6E of the *Well Suspension and Abandonment Guidelines and Interpretation Notes* (Guidelines) for the same well. The provided information has been reviewed and satisfies the requirements of section 89(1) and (2) of the *Oil and Gas Drilling and Production Regulations*.

Our records have been updated identifying the status of this well as Abandoned and in compliance with the Downhole Well Abandonment Requirements (Section 6A) of the *Well Suspension and Abandonment Guidelines and Interpretation Notes*.

Sincerely,

Pauline de Jong
Regulator
