Dear Esther Choi:

**Well Status: Suspension of the
Jean Marie B-48 (WID0448) (ACW-2021-IMP-B-48-WID0448)**

On March 6, 2023, the Office of the Regulator of Oil and Gas Operations (OROGO) received the Well Operations Report summarizing the 2023 abandonment operations for the Jean Marie B-48 well (WID0448). On May 17, 2023, OROGO received a revised Well Operations Report and a Well Termination Record for the same well. The report and record have been reviewed and satisfy the requirements of section 89(1) and (2) of the *Oil and Gas Drilling and Production Regulations*.

Term 13 of ACW-2021-IMP-B-48-WID0448 variation #3 requires Imperial Oil Limited to conduct post-abandonment gas migration of this well between July and September 2023 and between July and September 2024.

Upon completion of both post-abandonment gas migration tests, and after review of the results by OROGO, Imperial Oil Limited may submit a Well Status Change form to request the status of the Jean Marie B-48 well be changed to Abandoned.

Our records have been updated identifying the status of this well as Compliant Suspended.

Sincerely,

Pauline de Jong
Regulator
