Good afternoon,

I hope you and your families are all staying safe amidst the wildfires in the NWT.

Imperial had planned for another attempt to complete the post-abandonment monitoring site visit this week, however, due to active fires in the vicinity of the JMR B-48 site, we are unable to go.

As such, Imperial cannot meet the 2023 post-abandonment gas migration monitoring requirement per Term 13 of ACW-2021-IMP-B-48-WID0448. Respectfully, Imperial requests OROGO's approval to complete the two years of post-abandonment monitoring in the frost free months of 2024 and 2025.

Please let me know if you need additional information.

Thanks,

Esther Choi, E.I.T. (she/her)

Good morning,

Due to the smokey conditions, Imperial was unable to complete the post-abandonment monitoring as it was not safe for the helicopter to fly out.

The helicopter vendor does have availability in September, however, the OA approval requires that the gas migration testing be completed between July and September.

Could OROGO please provide guidance on how you would like us to proceed?

Thanks,

Esther Choi, E.I.T. (she/her)

Subject: JMR B-48 Notification of Post-Abandonment Monitoring

Good morning,

This email serves as notification of Imperial's upcoming post-abandonment well monitoring activities for the JMR B-48 well. Imperial's consultant is scheduled to be onsite next week from July 25-26 and July 27th if necessary.

Please let me know if you have any questions.

Thanks,

Esther Choi, E.I.T. (she/her)
