January 23, 2024

Dear Angie Stastook:

**Well Status: Abandonment of the
Mount Coty 2K-02 Well (WID1993) (ACW-2021-PPR-2K-02-WID1993 Variation 3)**

On August 28, 2023, the Office of the Regulator of Oil and Gas Operations (OROGO) received the Well Operations Report, including the results of the post abandonment gas migration testing required by Term 16 of ACW-2021-PPR-2K-02-WID1993 Variation #3 (ACW), for the Mount Coty 2K-02 well (WID1993). On January 22, 2024, OROGO received a request for change in well status for the same well. The report and request have been reviewed and satisfy the requirements of the ACW, *Well Suspension and Abandonment Guidelines and Interpretation Notes (Guidelines)*, and section 56 of the *Oil and Gas Drilling and Production Regulations*.

Our records have been updated identifying the status of this well as Abandoned and in compliance with the Downhole Well Abandonment Requirements (Section 6A) of the Guidelines.

Sincerely,

Pauline de Jong
Regulator
