CALGARY AB T2P 3G4

September 5, 2023

Dear Angie Stastook:

**Decision: ACW-2021-PPR-L-68-WID1207 variation #5**

On September 5, 2023, I approved an extension to the deadline for the abandonment of the S. Pointed Mountain L-68 well (WID1207) to September 15, 2024. As a result, the Well Approval for this operation (ACW-2021-PPR-L-68-WID1207 variation #4) must also be varied to extend its end date.

The Regulator, designated under section 121 of the *Oil and Gas Operations Act* (OGOA), may issue an Operations Authorization under section 10(1) of that act, subject to any Well Approvals that the Regulator may require under section 10(4) of OGOA. The Regulator may vary the terms of an Operations Authorization under section 10(6) of OGOA, including the terms of a Well Approval. On August 2, 2020, the Commissioner in Executive Council designated me as the Regulator under section 121 of OGOA.

The new end date for this Well Approval is November 1, 2024, to allow PPR to complete reporting and other administrative requirements after the well abandonment deadline has passed.

.../2

-2-

PPR must post a copy of the attached Well Approval in a clearly visible location at the work site.

Sincerely,

Pauline de Jong  
Regulator

Encl. Well Approval ACW-2021-PPR-L-68-WID1207 variation 5

c. Jeremy Sadleir, Yellowstone Resources

## Additional Terms

1. Prairie Provident Resources Canada Ltd. shall cause the approved work and activities to be conducted in accordance with the requirements of the *Oil and Gas Operations Act* and the *Oil and Gas Drilling and Production Regulations*, as well as any other acts or legislation as may apply.
2. Prairie Provident Resources Canada Ltd. shall cause the approved work and activities to be conducted in accordance with any guidelines and/or interpretation notes issued by the Regulator under section 18 of the *Oil and Gas Operations Act*.
3. Prairie Provident Resources Canada Ltd. is granted an exception from the requirement to set a bridge plug within 15 meters of perforations, as required by Section 6A, Downhole Abandonment Requirements of the *Well Suspension and Abandonment Guidelines and Interpretation Notes*.
4. Prairie Provident Resources Canada Ltd. shall cause the approved work and activities to be conducted in accordance with the specifications, standards and other information referred to in its application received April 30, 2021, request for variation received August 31, 2023, and subsequent submissions.
5. Prairie Provident Resources Canada Ltd. shall request approval from the Regulator prior to undertaking any change to or deviation from the authorized work or activities, including but not limited to key personnel, the safety plan, the environmental protection plan and contingency plans.
6. Prairie Provident Resources Canada Ltd. shall provide all staff and contractors for this program with its Emergency Response Plan and the OROGO 24-hour Incident Reporting phone number (867-445-8551) prior to commencing any work or activity.
7. Prairie Provident Resources Canada Ltd. shall notify OROGO at least 10 days prior to the start of well abandonment operations.
8. Prairie Provident Resources Canada Ltd. shall submit to OROGO certificates and inspection documents for any service rig, well control and associated equipment (including boilers) at least 10 days prior to the rig commencing work.
9. Prairie Provident Resources Canada Ltd. shall submit to OROGO an updated operator contact list for this program prior to any work or activity.
10. Prairie Provident Resources Canada Ltd. shall submit to OROGO a Daily Report outlining all activities undertaken for each day of the operation under this well approval no later than 10:00 a.m. the following day.
11. Prairie Provident Resources Canada Ltd. shall submit to OROGO a completed Change of Well Status form and a Well Operations Report 30 days after the service rig release date or when the operation has been successfully completed.
12. Prairie Provident Resources Canada Ltd. shall notify OROGO of and demonstrate, to the satisfaction of the Regulator, the location of the cement top prior to completion of wellbore and surface abandonment. Notification must include the results and interpretation of the completed noise/temp log and cement bond log as outlined in Step 16 of the Wellbore Abandonment Program.

13. Pursuant to section 67 of the *Oil and Gas Drilling and Production Regulations*, Prairie Provident Resources Canada Ltd. is approved to conduct controlled venting and flaring as part of well kill operations. Venting is approved utilizing separator packages and/or flare stacks to a maximum daily flow rate of 30 E3m<sup>3</sup>/day for a maximum daily duration of 4.0 hours per day and flaring is approved utilizing separator packages and/or flare stacks to a maximum daily flow rate of 30 E3m<sup>3</sup>/day and maximum daily duration of 4.0 hours per day. Prairie Provident Resources Canada Ltd. shall include the volume and composition of any amount of flared and/or vented gas in its daily report to OROGO. Flaring and/or venting of any volume, daily volume rate and/or duration greater than the approved maximum daily flow shall be reported to OROGO as an incident under section 75 of the *Oil and Gas Drilling and Production Regulations*.
