Subject: Information Request No. 8 - ACW-2021-PPR-L-68-WID1207
Date: February 27, 2026 5:03:00 PM

Good afternoon Angie –

To assess your request for variation to ACW-2021-PPR-L-68-WID1207, received at 3:50 pm today, OROGO requests the following information:

Any data Prairie Provident Resources Canada Ltd (PPR) may have to identify whether the gas encountered at the surface casing vent is a surface casing vent flow or an intermediate casing vent flow.

If this data is not available, can PPR safely record built-up pressure from the shut-in surface casing vent without exceeding the frac pressures at 165 mKB? This information plotted on a graph would help us determine if the gas is originating from a shallow or deep source.

Sincerely,
Pauline
