Good afternoon.

Strategic agrees with the proposal set forth in Information Request #1 for the above noted well.

Please find attached a copy of the revised abandonment program that reflects the recommended procedure in the event there is a casing integrity issue with this wellbore.

This procedure will ensure the isolation of the Sulphur Point zone through a cement squeeze and will isolate any casing integrity issues following OROGO's Well Suspension and Abandonment Guidelines.

Please get back to me with any questions or concerns.

Thanks

Ken N
