July 27, 2022

Dear Duncan MacRae:

Request for Extension for the Inspection of the Cameron L-29 Well (WID2041)

On July 26, 2022, the Office of the Regulator of Oil and Gas Operations (OROGO) received a request from Strategic Oil & Gas Ltd. (Strategic) to extend the deadline for completing an inspection of the Cameron L-29 well (WID2041), including gas migration testing. The inspection was scheduled to occur between July 1 and 31, 2022.

Strategic requests the extension “as a result of inaccessibility”. Section 5A of the *Well Suspension and Abandonment Guidelines and Interpretation Notes* requires suspended wells be “safety accessible for inspection and monitoring by helicopter year-round”. Please provide additional information on the state of the Cameron L-29 well site and explain why it was inaccessible for well inspection during the month of July and will remain inaccessible until the proposed inspection window of September 1 to 15, 2022.

Please send your written response to oro.go@gov.nt.ca on or before 12:00 p.m. on July 29, 2022.

If you are unable to respond within this timeframe or have any questions, please contact OROGO at 867-767-9097 or by email at oro.go@gov.nt.ca.

Sincerely,

Pauline de Jong
Regulator
