Dear John Hawkins:

Decision: ACW-2022-MGM-B-23-WID1998

On July 28, 2022, the Office of the Regulator of Oil and Gas Operations (OROGO) received a complete application from MGM Energy Corp. (MGM) for the abandonment of the Nogha B-23 well.

OROGO also received MGM's response to Information Request No. 1 on December 5, 2022.

The Regulator, designated under section 121 of the *Oil and Gas Operations Act* (OGOA), may issue a Well Approval under section 10(4) of that Act. On August 2, 2020, the Commissioner in Executive Council designated me as the Regulator under section 121 of OGOA.

I have reviewed MGM's description of its proposed activity and find that the application demonstrates that this activity will be conducted safely, without waste and without pollution, in compliance with the *Oil and Gas Drilling and Production Regulations*. Therefore, MGM's application is approved, subject to the terms contained in the attached Well Approval.

MGM must post a copy of the attached Well Approval in a clearly visible location at the work site.

Sincerely,

Pauline de Jong
Regulator
