November 28, 2022

Dear Duncan MacRae:

Notice: Variation Requirement Cameron J-04 Well (WID 2034)

On November 28, 2022, I notified Alvarez & Marsal Canada Inc., receivers for Strategic Oil & Gas Ltd. (Strategic), of the change in status for the Cameron J-04 well (WID 2034) to suspended non-compliant.

As a result of this change in status, Strategic is required to submit a request for variation for ACW-2021-SOG-J-04-WID2034 which ensures compliance with section 6D of the *Well Suspension and Abandonment Guidelines and Interpretation Notes*, which states:

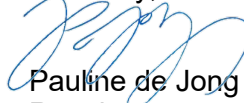

All GM or SCVF (serious and non-serious) and annular pressure must be repaired prior to abandoning the well. The repair program must be included in the application to Alter the Condition of a Well and must:

- *Describe the proposed method to identify the source of the GM/SCVF or annular pressure;*
- *Provide all related logs and log analysis;*
- *Provide casing and cementing details;*
- *Identify the base of groundwater protection depth; and*
- *Provide complete details of the proposed repair program.*

Please send this request for variation to OROGO at oroogo@gov.nt.ca on or before January 4, 2023, at 4:00 p.m.

If you are unable to respond within this time frame or have any questions, please contact me at (867) 767-9097 or by email at oroogo@gov.nt.ca.

Sincerely,

Pauline de Jong
Regulator
