November 28, 2023

Dear Duncan MacRae:

Well Status: Cameron M-31 Well (WID1122) (ACW-2022-SOG-M-31-WID1122 Var 3)

On November 23, 2023, the Office of the Regulator of Oil and Gas Operations (OROGO) received the inspection report and gas migration testing report for the Cameron M-31 well (WID1122). The reports have been reviewed and do not satisfy the requirements of section 56 of the *Oil and Gas Drilling and Production Regulations*.

Our records continue to reflect the status of this well as non-compliant suspended and in not in compliance with the Downhole Well Abandonment Requirements (Section 5A) of the *Well Suspension and Abandonment Guidelines and Interpretation Notes (Guidelines)*. Please contact OROGO with your plans to address the gas migration at this well.

Sincerely,

Pauline de Jong
Regulator
