**Re: Information Request No. 4
Aurora Training Well G-04 Abandonment
ACW-2023-AC-G-04-WID1915**

Dear Ms. de Jong

Canadian Petroleum Engineering on behalf of Aurora College is pleased to submit the attached response to OROGO regarding Information Request No. 4, Aurora Training Well G-04, ACW-2023-G-04-WID1915 resulting from our application of Feb 14, 2023.

It had been our intent to perform a wellhead inspection and casing pressure test on or about November 20, 2023 as was indicated in our response to ACW IR #3. It was our belief that we had to wait until OROGO approved the revised schedule submitted in that IR response before proceeding with that operation. We were obviously mistaken and apologize for the confusion caused by that belief.

The wellhead inspection and casing pressure test will be conducted in mid June 2024 in the week prior to our proceeding with the remainder of the well abandonment operations on the AC Training Well G-04 as provided in IR #3 Response, ACW-2023-G-04-WID 1915.

CPE will provide additional information as required.

Sincerely

Lorne Hammer
Director CPE
