Additional Terms

1. Strategic Oil & Gas Ltd. shall cause the approved work and activities to be conducted in accordance with the requirements of the *Oil and Gas Operations Act* and the *Oil and Gas Drilling and Production Regulations*, as well as any other acts or legislation as may apply.
2. Strategic Oil & Gas Ltd. shall cause the approved work and activities to be conducted in accordance with any guidelines and/or interpretation notes issued by the Regulator under section 18 of the *Oil and Gas Operations Act*.
3. Strategic Oil & Gas Ltd. shall cause the approved work and activities to be conducted in accordance with the specifications, standards and other information referred to in its application dated January 17, 2023, request for variation dated September 13, 2023, and subsequent submissions.
4. Strategic Oil & Gas Ltd. shall request approval from the Regulator prior to undertaking any change to or deviation from the authorized work or activities, including but not limited to key personnel, the safety plan, the environmental protection plan and contingency plans.
5. Pursuant to section 67 of the *Oil and Gas Drilling and Production Regulations*, Strategic Oil & Gas Ltd. is approved to conduct controlled venting and/or flaring as part of well kill operations to a maximum daily flow rate of 2.90 e³m³/day for a maximum daily duration of 4.0 hours per day. Strategic Oil & Gas Ltd. shall include the volume and composition of any amount of flared and/or vented gas in its daily report to OROGO. Flaring and/or venting of any volume, daily volume rate and/or duration greater than the approved maximum daily flow shall be reported to OROGO as an incident under section 75 of the *Oil and Gas Drilling and Production Regulations*.
6. Strategic Oil & Gas Ltd. is granted an exemption from the requirement to circulate cement in place during the abandonment of the Keg River perforations (steps 17-19 of the Wellbore Abandonment Program).
7. Strategic Oil & Gas Ltd. shall notify OROGO of and demonstrate, to the satisfaction of the Regulator, the location of the cement top prior to completion of wellbore and surface abandonment. Notification must include the results and interpretation of the completed radial cement bond log as outlined in Step 31 of the Wellbore Abandonment Program.
8. Strategic Oil & Gas Ltd. shall notify OROGO of and demonstrate, to the satisfaction of the Regulator, the location of the cement top prior to commencing remedial cementing, as outlined in Steps 40 through 62 of the Wellbore Abandonment Program. Notification must include the results and interpretation of the completed radial cement bond log as outlined in Step 31 of the Wellbore Abandonment Program, including proof of ground water isolation as required by section 6B of the *Well Suspension and Abandonment Guidelines and Interpretation Notes*.
9. Strategic Oil & Gas Ltd. shall notify the Regulator of each interval targeted for remedial cementing by sending an email to orogo@gov.nt.ca that includes the depth and anticipated time frame operations will occur. Following completion of each remedial cementing interval,

Strategic Oil & Gas Ltd must include detailed results on the operations including feed rate and cement volume.

10. Strategic Oil & Gas Ltd. shall provide all staff and contractors for this program with its Emergency Response Plan and the OROGO 24-hour Incident Reporting phone number (867-445-8551) prior to commencing any work or activity.
11. Strategic Oil & Gas Ltd. shall notify OROGO at least 10 days prior to the start of approved operations.
12. Strategic Oil & Gas Ltd. shall submit to OROGO certificates and inspection documents for any service rig, well control and associated equipment (including boilers) at least 10 days prior to the rig commencing work.
13. Strategic Oil & Gas Ltd. shall submit to OROGO an updated operator contact list for this program prior to any work or activity.
14. Strategic Oil & Gas Ltd. shall submit to OROGO a Daily Report outlining all activities undertaken for each day of the operation under this well approval no later than 10:00 a.m. the following day.
15. Strategic Oil & Gas Ltd. shall submit to OROGO a completed Change of Well Status form 30 days after the service rig release date or when the operation has been successfully completed.
16. Strategic Oil & Gas Ltd. shall complete gas migration (GM) testing between July and October 2023, as described in section 4A of the *Well Suspension and Abandonment Guidelines and Interpretation Notes*. Strategic Oil & Gas Ltd. shall notify OROGO at least 10 days prior to conducting GM testing and submit a report of the GM testing results to the Regulator within 30 days of conducting the testing. The report must include evidence that the test was carried out during frost-free conditions. Should analysis of the methane be required to determine the thermogenic source, Strategic Oil & Gas Ltd. must notify OROGO with an anticipated timeframe to submit the analytical results.
