September 19, 2023

Dear Duncan MacRae:

Reporting Satisfactory: Cameron L-47 (WID1736) (ACW-2023-SOG-L-47-WID1736)

On April 3, 2023, the Office of the Regulator of Oil and Gas Operations (OROGO) received the Well Operations Report and Well Termination Record summarizing the 2023 abandonment operations for the Cameron L-47 well (WID1736). The report and record have been reviewed and satisfy the requirements of section 89(1) and (2) of the *Oil and Gas Drilling and Production Regulations*.

Strategic Oil and Gas Ltd. has committed to completing post-abandonment gas migration (GM) testing between July and October 2023. As a reminder, Strategic must notify OROGO at least 10 days prior to GM testing and submit a report of the GM testing results to the Regulator within 30 days of conducting the testing.

Once GM testing is complete, and if the results are satisfactory, Strategic Oil and Gas Ltd. may submit a Change of Well Status form for this well to OROGO.

Sincerely,

Pauline de Jong
Regulator
