Attention: Pauline de Jong, Regulator, Office of the Regulator of Oil and Gas Operations (OROGO)

**RE: Husky Oil Operations Limited OA-2018-002**

Over the period of August 24<sup>th</sup> – 31<sup>st</sup>, 2021, personnel representing Husky Oil Operations Limited, a subsidiary of Cenovus Energy Inc., travelled to the Slater River Program in the Sahtu Area. Gas migration testing was conducted at both Little Bear H-64 (WID 2077) and N-09 (WID 2076), and no concerns were noted after the required testing.

Husky is currently in the process of completing the final Gas Migration reports, but due to timing / personnel changes with regards to the merger of Husky and Cenovus, requests to vary the end date of the Operations Authorization, until December 14, 2021 (Variation #3). The reports will be finalized and sent to OROGO prior to the proposed end date for review.

Husky is confident that with the proposed extension, all information required with regards to the gas migration testing will be complete for each well.

If you have any questions or concerns, please do not hesitate to contact me via email or phone.

Regards,

Chris Salewich, AAg, B.Sc.  
Contract Project Manager, NWT Operations  
Earthworks  
Husky Oil Operations Limited, a Subsidiary of Cenovus Energy Inc.
