March 13, 2020

Dear Vicky Chan:

**Letter of Decision: Approval for Deactivation of
A-03 Lateral Pipeline - Cameron Hills (OA-2018-003-SOG)**

On March 13, 2020, the Office of the Regulator of Oil and Gas Operations (OROGO) received an application from Alvarez and Marsal Canada ULC (A&M), receivers for Strategic Oil and Gas Ltd. (Strategic), for approval to deactivate the A-03 lateral pipeline in the Cameron Hills field under its existing Operations Authorization (OA-2018-003-SOG).

The Regulator, designated under section 121 of the *Oil and Gas Operations Act* (OGOA), may vary the terms of an authorization issued under the act (Section 10(6) of OGOA). The Regulator has delegated the power to vary authorizations under section 10 of OGOA to the Chief Conservation Officer, in accordance with section 8 of that act.

I have reviewed A&M's application for deactivation of the A-03 lateral pipeline and find that the proposed activity will be conducted safely, without waste and without pollution. Therefore, A&M's application to deactivate the A-03 lateral pipeline is approved, subject to the following terms:

1. As required under section 83 of the OGDPR, A&M must submit a daily report summarizing pipeline deactivation steps, including any activity that may be critical to the safety of persons on the installation, the protection of the environment or the prevention of waste.

.../2

2. A&M shall report any emergency flaring or venting in accordance with section 67(b) of the OGDPR.
3. A&M must post a copy of this approval in a clearly visible location at the work site.

Sincerely,

Pauline de Jong
Chief Conservation Officer
