CALGARY AB T2P 1K3

June 16, 2022

Dear Craig Langford:

**Review: 2021 Annual Safety Report - Satisfactory (OA-2019-001-OBS)**

On June 14, 2022, Obsidian Energy Ltd. (Obsidian) submitted its 2021 Annual Safety Report regarding operations conducted in the Fort Liard area of the Northwest Territories (OA-2019-001-OBS). This annual report, required by section 87 of the *Oil and Gas Drilling and Production Regulations* (OGDPR), must include a summary of lost or restricted workday injuries, minor injuries and safety-related incidents and near-misses and a discussion of efforts undertaken to improve safety. Obsidian and the Office of the Regulator of Oil and Gas Operations (OROGO) also corresponded to clarify the content and evaluation of this report.

OROGO has reviewed Obsidian's 2021 Annual Safety Report for OA-2019-001-OBS and is satisfied that it meets the requirements of section 87 of the OGDPR.

In the future, OROGO will require Obsidian to submit an Annual Safety Report for OA-2019-001-OBS that adequately discusses all efforts undertaken to improve safety

Sincerely,

Michael Martin  
Chief Safety Officer
