Dear Mark Cliffe-Phillips:

Preliminary Screening Determination:
Application for Operations Authorization OA-2021-001-PPR

On June 29, 2021, The Office of the Regulator of Oil and Gas Operations (OROGO) received a complete OA application from Prairie Provident Resource Ltd. (PPR) for the purposes of abandonment of the Mount Coty 2K-02 (WID 1993) and the Pointed Mountain L-68 (WID 1207) wells.

The activities proposed under OA-2021-001-PPR were previously subject to preliminary screening by the Mackenzie Valley Land and Water Board under Land Use Permits MV2003A0005 (on March 18, 2003) and MV2010A0016 (on June 24, 2010). The proposed activities have not since been modified.

Therefore, I have determined that PPR's application for Operations Authorization OA-2021-001-PPR is exempt from preliminary screening as per Schedule 1, Paragraph 2.1 of the Exemption List Regulations under the MVRMA.

Sincerely,

Pauline de Jong
Regulator
